

GXS Trading Grid® Online

Quickly and Easily Monitor, Administer and Manage Your Messaging Environment

GXS Trading Grid Online provides you with an easy-to-use, intuitive, multi-lingual web-based interface, to quickly and easily monitor, administer and manage your Trading Grid Messaging Service environment. It provides you with the tools you need to:

- Quickly view status of documents (sent and received) to enable you to take any actions that may be required
- Start trading electronically with new business partners around the world easily and without delay
- Streamline your business-to-business processes on-demand
- Obtain the support you need when you need it, the way you need it and in your local language

With powerful and flexible visibility, administrative control and support options, you can have more confidence in your business activities and react quickly to changes while building an agile and adaptable messaging environment.

Powerful Visibility Features

Obtain the information you need with the fewest clicks.

- **Status Dashboard**—Using the online summary, obtain real-time status of documents sent and received, including sub-totals of those successfully processed, rejected and pending. With a flexible display option, you can view documents processed by day or hour (past hour, today or previous day).
- **Formatted Reports**—Quickly and easily customise inbound, outbound and interconnect status reports to your specific needs with powerful filter and sort capabilities.
- **Online Document Review**—View the contents of a specific document in its native EDI or XML format.

GXS Trading Grid® is a unique global integration platform that enables and streamlines cross-enterprise business processes. With extreme flexibility and a service-oriented, business-to-business e-commerce platform, the Grid helps companies automate global trading communities by shielding complexity from rapidly changing standards, eliminating manual and duplicative efforts and enabling a new level of process integration and business intelligence.

IMMEDIATE VISIBILITY TO:

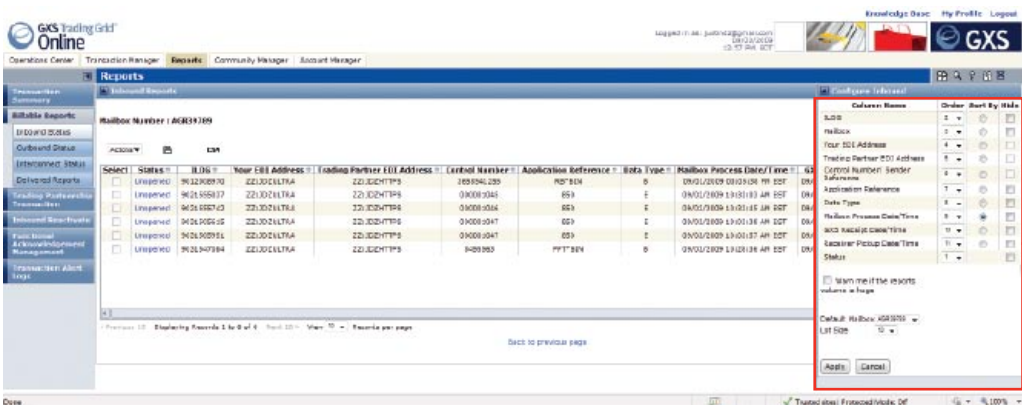

- Real-time status of documents you sent and received
- Totals and subtotals of successful, rejected, and pending documents

- **Powerful Intelligent Search**— With built-in intelligent search functionality, find the information you need, quickly and effortlessly. Search by document type, trading partner, date, time, status and more.

Flexible Management and Administration Features

Easily set up, manage and adjust document processing as your needs change.

- **Flexible Administrative Management**— Define types of users and set authority levels to match your requirements. The administrator can set up new partnerships, manage electronic addresses, view online invoices, set up auto-copy, carbon copy, and auto-forward distribution lists and perform other administrative tasks. Non-administrators may send, receive and track documents.
- **Multi-Lingual Interface**— Establish the interface in your choice of language— English, French, German, Italian, Spanish, Portuguese, Czech, Simplified Chinese and Japanese.
- **Simple Document Re-queuing**— Re-receive or re-send documents you previously processed without having to contact your trading partner or re-create documents from your internal system.
- **Quick and Easy File Upload and Download**— Use a standard web browser to upload or download documents to and from your desktop.

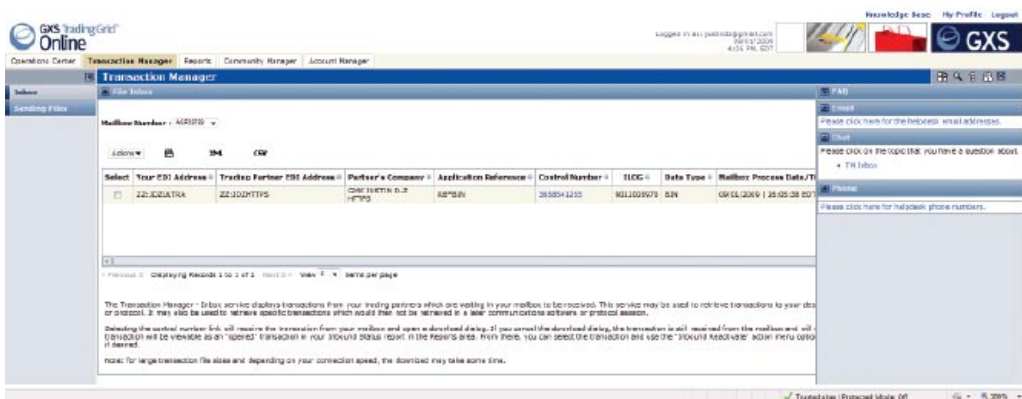

EASILY CONFIGURE REPORTS TO SUIT YOUR NEEDS:

- Define the display sequence
- Check off the fields to sort by
- Check off the fields to hide

A Wealth of Support Options

The help you need when you need it, the way you prefer, in your local language and time zone.

- **Online Site Tour**— Get an introduction and tutorial of the most commonly used service features at your convenience and without leaving your desk.
- **Context-Sensitive Help**— With a single click, get online help specifically related to your current screen and in your preferred language.
- **Email Support**— Initiate an email question direct to the GXS technical support team via the Help icon on your screen.
- **Phone Support**— The phone number for your local Help Desk is on the Help icon. Phone support is available 24x7.

- **Live Chat**—Establish real-time contact directly with a technical expert; no need to make a phone call or wait for email.
